

PUBLIC UTILITY DISTRICT NO 1. OF KITTITAS COUNTY – SCHEDULE 2004

Small Commercial Net - Single Phase
Distributed Generation Service 25kW and smaller

Availability:

This schedule is limited to single phase customers with a generating facility, or a hybrid system of one or more types, with a total rated capacity of not more than 25 kilowatts. Services connected under this schedule must have a service entrance rating of 400A or less. Generator must be located on the customer's owned, leased, or rented premises, is interconnected and operates in parallel with the District's distribution system, and is intended primarily to offset part or all of the customer's own electrical requirements.

Service hereunder is subject to the established rules and regulations of the District. The commission may adopt additional safety, power quality, and interconnection requirements for customer-generators that the commission determines are to protect public safety and system reliability.

Customers desiring this rate schedule must provide the District with: (a) Interconnection Application; AND (b) Power Purchase and Interconnection Agreement.

All customers in this rate shall not be allowed to participate in the Washington State Renewable Energy Cost Recovery Incentive Payment Program (Legacy Program). Customers may participate in the Washington State Phase 2 incentive program beginning October 1, 2017 while participation is available.

Type of Service:

Single phase at available secondary voltages, normally 120/240.

Monthly Rate:

Facility Charge	\$ 27.25/month
Delivered Energy Charge	
First 20,000 kWh	\$.0908/kWh
Over 20,000 kWh	\$.0794/kWh
Received Energy Credit	\$.02520/kWh*
Delivered Demand Charge	
First 25 kW or less	No charge
Over 25 kW Secondary.....	\$5.64/kW
Received Demand	No credit

* Matches Bonneville Power Administration Power Rate Schedule, Tier 2 Remarketing Rate (currently \$25.20 mills/kWh)

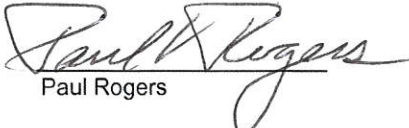

Metering:

District Meter will register three readings; "DEL" kwh delivered energy to the customer, "REC" kwh received energy from the customer and "Demand" kW delivered. Customers are billed monthly the delivered kilowatt hours and credited monthly the received kilowatt hours. There is no banking of kilowatt hours in this rate. This is not a production metering system. The total District purchased energy in dollars, may not exceed the District sold energy in dollars.

Terms of Payment:

Payable upon receipt. Bills unpaid after the due date will be charged interest at the rate of 1% monthly.
